

**Reining in the Rain:
Watershed-friendly “Low Impact Development”
Site Design and Permeable Pavements
for Stormwater Management**

Save the Date!

January 23, 2013 | 8:30 - 4:30
at The Wharfinger Building,
1 Marina Way, Eureka, CA

Workshop focus:

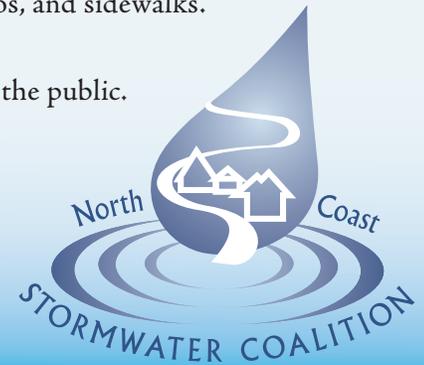

Learn about the benefits of using LID in new development and retrofit projects, new regulations and requirements, as well as design, implementation, and maintenance of LID projects from industry experts and local practitioners with first-hand experience. Permeable pavement sessions will provide technical information on how to use permeable asphalt, concrete, and pavers in driveways, parking lots, patios, and sidewalks.

Who should attend?

Building trade professionals, landscape professionals, local and state government, and the public.

Topics include:

- Low Impact Development – overview of benefits
- New stormwater regulations and requirements
- Local LID examples
- LID - what works & what doesn't work
- Panel discussion on LID design
- Permeable pavements (permeable asphalt, concrete, pavers) – design & installation
- Rain gardens, rain barrels and cisterns

Full agendas and registration information will be available online by January 4 at: www.northcoaststormwatercoalition.org
For more information, please contact Becky at (707) 499-6454. Sponsored by the North Coast Stormwater Coalition.
